

# Paul Green for State Senate

## District 6

- ✓ **TAXES:** I believe in minimal taxation, and I oppose the 1/4 of 1 percent sales tax increase to build a new Sacramento downtown arena.
- ✓ **EDUCATION:** I support education and desire to see the reestablishment of agriculture, business and vocational curriculums in public schools so as to provide more economic opportunity for students after graduation.
- ✓ **VALUES:** I believe in traditional family values - to include defining marriage as being between a man and a woman and accepting that the ultimate responsibility to rear a minor child is vested in the child's parents or guardians

**PAUL GREEN** *brings real world experience to politics.*

- 24-year Military Veteran
- School Board president
- Contractors State License Board
- Recreation and Park Board
- McClellan Restoration Advisory Board (toxic cleanup)
- PBS on-air studio captain
- *and much more...*

"Representative democracy means that those elected represent not only those who vote for them, but all citizens, voters or not. Legislators today believe only one way is right and vote consistently along party lines. This is not good government. It leads to the majority Party playing offense and the minority Party playing defense and meanwhile, important issues that matter to real people remain unaddressed."

*Paul R. Green*

***Citizens deserve better!***

**Citizens deserve Paul Green**
